

YT-1300 COREELLIAN FREIGHTER DECAL SET® by ACME™ Inc.
Rectangles decal map for HLMF and HRMF

Note;
Rectangle decals are NOT to scale on diagram. They are approx. 5% to large. Position and orientation is as accurate as practicable. The top view is closer to scale than the bottom view. Slight position adjustment has been necessary due to discrepancy of hull plating layout of between 5 ft shooting prop and Hasbro® Rebel Millennium Falcon toy/model.

Note: There are aprox. 416 Hash marks total shown.

Your hash mark decal sheet provides 864 hash marks.
