

Jod's Pant Pocket  
(Accordion Style)

Pattern based on size  
22.5 cm height  
17 cm width  
1 cm bellow

I produced a half pattern only so  
it would fit on Legal Size Paper.  
Make a Full-size pattern before  
you cut your pocket.

An excellent video on how to  
sew a more complicated  
three bellow version will  
explain the process much  
better than I could. The  
video will also provide an image  
of the more complex pocket  
if you would like to try. It  
will also give you an  
understanding of how you  
can modify this pattern or create  
your own for a different size.
