# FOREWORD

Almost two years after starting this project in December of 2009, Propworx is proud to present the final of our three Stargate live auctions. We hope this auction will be the capstone of our auctions, which have included two previous live auctions and numerous eBay auctions. We were fortunate to have major science fiction classics as our first two major auctions. First we did Battlestar Galactica, the best science fiction show that has ever been on television. Then we did Stargate, the longest running science fiction show in American TV history. We at Propworx are huge fans of both shows and have been truly blessed to handle their auctions.

From the beginning, we felt we were archiving Stargate as much as we were selling the assets of the production--thus the name "Stargate Artifacts". We are all fans of the show and wanted to make sure the assets were treated as we felt they should be. We wanted to create auctions and accompanying catalogs that people would use as reference material 10 years from now. Starting with the Battlestar Galactica auctions, we felt

that preserving these assets through the process of selling them was as important an archive as anything a studio could do. These auctions, as well as the accompanying photographs, websites and catalogs, will always be publicly available archive material.

The number of cool items that has flowed through our warehouses is astounding. Being able to handle, catalog and photograph these items is the greatest part of this job. We all love what we do and hope the geek in all of us helps make us better stewards of the items as we bring them from the studio to you.

Working with the amazing people at the Stargate production has been such a pleasure, as they are truly wonderful, passionate people who love what they do. They have always treated us like honored guests and made our job easy. John Lenic, who worked his way up to become producer of the show in Vancouver, was never too busy to give someone a studio tour. His graciousness was endearing and educational. His

whole team--especially costume designer Val Halverso, propmaster Kenny Gibbs, set decorator Mark Davidson and Scott Wellenbrink in construction--treated us so well and created fond memories of our time working on the show.

Brad Wright is an amazing Executive Producer who really embodies all that is great about Stargate. My time with him, though short, was memorable. There isn't a touch of arrogance in the man. He is genuine, passionate and committed. Maybe that is why he works in Vancouver rather than L.A. There is an overall sense of passion in the Vancouver film community that makes their work more about creating great product than getting caught up in some ratings or status rat race.

The people at MGM have come and gone through their corporate restructuring, but the main man behind Stargate remains Charlie Cohen. He has shepherded the production through 10 seasons of SG1, five seasons of Stargate: Atlantis, two Stargate movies and two seasons of Stargate:

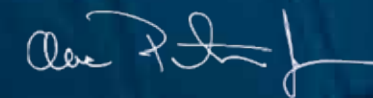

Universe. The whole time he was the man who made sure Stargate continued. Chris Bosco, who has since left MGM, was our main point of contact and a dedicated fan of our process, even attending the first live Stargate auction at the Sci Fi museum in Seattle. His assistant Chris McComb was another great person to work with and we wish him luck at his new job at Marvel.

The Propworx crew remains the best in the business. With the departure of David Read for the greener pastures of PayPal, Dean Newbury was elevated from first prime to Stargate Cataloger System Lord. And he has done an extraordinary job on the catalog. Nick Savoy continues to do our spectacular photography. Jarrod Hunt and Damien Beurer have worked primarily on other projects while Dean was cataloging Stargate, but every auction we do is a team effort. Curtis Short is now solely responsible for shipping, while Linda Halket continues to handle our finances. Shelley Littleton Oliver handles our PR and does a fantastic job as always. The layout and design of our catalogs is the handiwork of the talented

Damaris Degen, who continues to keep Propworx catalogs the best in any galaxy.

Thanks to all our customers who have continued to buy from our auctions and support Propworx. We really are lucky to have such great customers and we appreciate all of you. If you are not on the Propworx prop forum, you should be! It is simply the best prop and costume forum on the Internet. Collectors share information and have built a community, which tells you the quality of people that we count as our customers.

As always, we wish you all the best of luck in this auction!

All online bidders shall, in addition to these Conditions of Sale, be bound by the online Terms of Use, available at [www.propworx.com/onlinebidding](http://www.propworx.com/onlinebidding), the provisions of which are incorporate herein by this reference. In the event of any conflict between said Terms of Use and these Conditions of Sale, the terms and conditions set forth herein shall control.

## 2. BEFORE THE SALE

### (a) Examination of property

Prospective buyers are strongly advised to examine personally any property in which they are interested, before the auction takes place. Neither Propworx nor the seller provides any guarantee in relation to the nature of the property apart from the Limited Warranty in paragraph 6 below. The property is otherwise sold "as is."

All statements by us in the printed and online catalog entry for the property, or made orally or in writing elsewhere, are statements of opinion and are not to be relied on as statements of fact. Such statements do not constitute a representation, warranty or assumption of liability by us of any kind. Referen-

ces in the printed and online catalog entry or the condition report to damage or restoration are for guidance only and should be evaluated by personal inspection by the bidder or a knowledgeable representative. The absence of such a reference does not imply that an item is free from defects or restoration, nor does a reference to particular defects imply the absence of any others. Estimates of the selling price should not be relied on as a statement that this is the price at which the item will sell or its value for any other purpose. Except as set forth in paragraph 6 below, neither Propworx nor the seller is responsible in any way for errors and omissions in the catalog or any supplemental material.

### (b) Buyer's responsibility

Except as stated in the Limited Warranty in paragraph 6 below, all property is sold "as is" without any representation or warranty of any kind by Propworx or the seller. ### (b) Registration before bidding

A prospective buyer must complete and sign a registration form or complete and authorize the online registration process and provide identification before bidding. We may require the production of bank or other financial references.

### (c) Bidding as principal

When making a bid, a bidder is accepting personal liability to pay the purchase price, including the buyer's premium and all applicable taxes, plus all other applicable charges, unless it has been explicitly agreed in writing with Propworx before the commencement of the sale that the bidder is acting as agent on behalf of an identified third party acceptable to Propworx, and that Propworx will only look to the principal for payment.

### (d) Absentee bids

Absentee bids should be placed online as designated at the [www.propworx.com/onlinebidding](http://www.propworx.com/onlinebidding) website. Written bids will not be accepted for this auction.

### (g) Reserves

All lots in this sale are offered without reserve.

### (h) Auctioneer's discretion

The auctioneer has the right, at his absolute and sole discretion, to refuse any bid, to advance the bidding in such a manner as he may decide, and, in the case of error or dispute, and whether during or after the sale, to determine the successful bidder, to continue the bidding, to cancel the sale or to reoffer and resell the item in dispute. If any dispute arises after the sale, our sale record is conclusive.

### (i) Successful bid and passing of risk

Subject to the auctioneer's discretion, the highest bidder accepted by the auctioneer will be the buyer and the striking of the auctioneer's hammer marks the acceptance of the highest bid and the conclusion of a contract for sale between the seller and the buyer. Risk and responsibility for the lot passes to the buyer at the expiration of seven calendar days from the date of the sale or on collection by the buyer if earlier.

## 4. AFTER THE SALE

### (a) Buyer's premium

In addition to the hammer price, the buyer agrees to pay to us the buyer's premium together with any

applicable sales tax or compensating use tax. The buyer's premium is 23% of the final bid price of each lot up to and including \$100,000 and 18% of the excess of the hammer price above \$100,000 when paid with a credit card. The buyer must pay the full amount due (comprising the hammer price, buyer's premium and any applicable taxes) not later than 5.00pm on the seventh calendar day following the sale. This applies even if the buyer wishes to export the lot and an export license is, or may be, required. The buyer will not acquire title to the lot until all amounts due to us have been received by us in good cleared funds even in circumstances where we have released the lot to the buyer.

### (c) Collection of purchases

THERE WILL BE A \$25 PACKAGING/HANDLING FEE PER LOT. This will be assessed and added to the shipping cost. Buyer will pay the \$25 packaging/handling fee per lot whether the item is picked up or shipped. Buyer is responsible for picking up their merchandise, or for all shipping, handling and insurance charges through either Propworx or its designated agent as agreed upon by Propworx. Although we shall use reasonable efforts to take care when handling, packing and shipping a purchased lot, we are not responsible for the acts or omissions of third parties whom we might retain for these purposes. Similarly. Where we may suggest other handlers, packers, or carriers if so requested, we do not accept responsibility or liability for their act or omissions.

### (e) Export license

Unless otherwise agreed by us in writing, the fact that the buyer wishes to apply for an export license does not affect his or her obligation to make payment within seven days nor our right to charge interest or storage charges on late payment. If the buyer requests us to apply for an export license on his or her behalf, we shall be entitled to make a charge for this service. We shall not be obliged to rescind a sale nor to refund any interest or other expenses incurred by the buyer where payment is made by the buyer in circumstances where an export license is required.

### (f) Remedies for non payment

If the buyer fails to make payment in full in good cleared funds within the time required by paragraph 4(b) above, we shall be entitled in our absolute discretion to exercise one or more of the following rights or remedies (in addition to asserting any other rights or remedies available to us by law):

The buyer will be deemed to have granted such security to us and we may retain such property as collateral security for such buyer's obligations to us;*

(x) *to take such other action as we deem necessary or appropriate.*

If we resell the property under paragraph (iv) above, the defaulting buyer shall be liable for payment of any deficiency between the total amount originally due to us and the price obtained upon resale, as well as for all costs, expenses, damages, legal fees and commissions and premiums of whatever kind associated with both sales or otherwise arising from the default. If we pay any amount to the seller under paragraph (v) above, the buyer acknowledges that Propworx shall have all of the rights of the seller, however arising, to pursue the buyer for such amount.
